IRONMAN
ALLEY GATES™

“58% drop in crime since alley gates installed in Barry, South Wales”

Inspector Geraint Evans, South Wales Police

The IRONMAN™ gates manufactured by Design and Manufacture Ltd hold the Secured by Design Gold Status Award. Secured by Design is a crime prevention initiative supported by the Association of Chief Police Officers (ACPO) and the Home Office.

Security and Peace of Mind

Only 15% of domestic burglaries take place through the front of a premises.

In the modern world house holders often have to put up with many forms of anti-social behavior which can include drug abuse, prostitution, fly tipping and rubbish burning.

Installation of the IRONMAN™ alley gate not only reduces crime significantly but also reduces the fear of crime. There are massive satisfaction levels following installation of the IRONMAN™ alley gates.

“A home office study reveals that a burglary costs around £2350 in repairs, restoration and goods taken”

“That means that the gates installed have saved the people of Norwich about £1M as well as the considerable stress which accompanies attacks of this kind”

Inspector Walsh, Norfolk Police

Why you should fit IRONMAN™ gates

A study carried out by Liverpool University's Environmental Research unit showed millions of pounds had been saved in police time, insurance claims and court costs.

- The product is tested, tried, trusted and manufactured by a company with over a quarter of a century of experience.
- Residents' children can play safely within the confines of the gated lanes.
- The gates have been independently proven to be one of the most effective means of reducing burglary and anti social behavior in communities.
- Residents and legitimate visitors like the police and security services have access. The general environment becomes cleaner and safer and can even enhance property values.
- A Local Authority or any other logo can be cut in the doors with our sophisticated laser cutting process.
